THE TRAFFIC WORLD AND TRAFFIC BULLETIN

NOTICE.—The contents of this section are copyrighted; reproduction without permission prohibited.

Vol. V. No. 16 WHOLE No. 158 CHICAGO, ILL., APRIL 16, 1910 Price, $10.00 Per Year

EXPLANATORY.

All freight tariffs filed with the Interstate Commerce Commission since the last issue of THE TRAFFIC WORLD AND TRAFFIC BULLETIN will be found listed in the columns of the tariff section. As far as possible, the tariffs are classified and shown under the appropriate commodity heading. Tariffs covering commodities more or less relative or analogous to each other are carried under the same heading.

Specific rates are given in cases where tariffs are not too voluminous. Unless otherwise indicated, these specific rates are in cents per 100 pounds. To avoid possibility of error all rate quotations given in THE WORLD should be verified prior to being used for routing or contract purposes.

Particular attention is called to the tariffs bulletined under the heading "Classes and Commodities." The tariffs naming class rates are of interest to subscribers whose tonnage, either wholly or in part, is subject to rates determined by the use of the Official, Western and Southern classifications in the territories where these classifications govern. There subscribers should follow closely not only the changes in class rates, but also the classification changes as bulletined under "Classifications and Rules."

Tariffs, classifications, etc., filed by associations, committees, fast freight lines and other organizations, or by any designated carrier or individual acting as agent for other carriers, will be bulletined as filed by them. Subsequent filings of the same issues by individual carriers will be omitted.

The main object of this section of THE TRAFFIC WORLD AND TRAFFIC BULLETIN is to give advance information regarding new tariffs, and subscribers should examine the tariffs in which they are interested and post themselves on the details thereof. When applying to carriers for tariffs, applications should give both the I. C. C. and railroad numbers, as well as effective date and a brief description of the tariff.

If It Concerns Traffic, Ask Us—We Can Tell You

We have unsurpassed facilities for obtaining information on traffic matters. A corps of trained rate experts are at your service in Washington. We can handle your work with promptness and economy. Write us.

THE TRAFFIC SERVICE BUREAU - - 26 Jordan Bldg., Washington, D. C.

YOU DON'T HAVE TO BE A LAWYER

To Be a Successful Traffic Man,

BUT—

You must be grounded in a knowledge of commerce law

Not, of course, the minute, technical knowledge of the traffic attorney, but a broad general understanding of the principles that are fundamental in the construction and interpretation of our statutes governing interstate commerce. Complex methods of doing business, methods undreamed of by our forefathers, have made necessary much legislation that the successful traffic man of to-day must know.

It is this knowledge that is one of the distinguishing features between a traffic manager and a shipping clerk.

To give this broad knowledge of the law, this general but accurate survey of the entire field of commerce legislation, there is one work whose supremacy has never been disputed. That is

"Hutchinson on Carriers"

Since its first appearance it has been recognized as the one work authoritatively treating the entire field. It has been revised and brought thoroughly down to date. The latest edition, the third, retains all the essential features of the previous editions, but has been revised and enlarged to cover the many new developments since the appearance of the second edition.

Don't you think a work that has been able to hold the lead since 1879 should be in your *business* library?

"Hutchinson on Carriers" is divided into fifteen chapters, contains 1446 sections (1,000 of which have been revised or rewritten), deals with 11,000 cases (6,000 of which have been added since the second edition) and 30,000 citations.

3 Volumes, $18.00 net.
